## Medical Condition Level of Package Fee

### 定價收費病人病情級別

The Medical Condition Level of Package Fee is determined based on complexity of the intended treatment or operation, individual patient's health condition, and post-operative complications which may require multi-specialty medical consultations, multi-disciplinary care, and the use of high-dependence/ intensive care.

定價收費價目取決於病人病情級別，基於病人的健康狀況、接受治療或手術的複雜性、及因術後併發症而需要的多專科醫生診治、多專業照顧、及加護 / 深切治療而釐定。

Day Procedure 日間治療	Stay for Day Procedure only (meals are not included). If an overnight stay is required, the inpatient package fee will be applied according to the patient condition.  入院僅作日間治療 (膳食費用除外)。如需過夜，將根據病人病情而定的住院治療定價收費計算。
Inpatient 住院治療	Include standard 4-bed room charge as per estimated length of stay according to the standard clinical pathway/ protocol. When an inpatient package fee is planned and chosen before the hospital admission, it cannot be converted to a day package fee even if an overnight stay is finally not required. The budget estimate may be updated due to changes in patient condition arising unforeseen complications during hospital stay (see below).  包括根據標準臨床方案的預計住院時間所需入住的標準4人房房費。入院前計劃如選擇住院定價收費，即使最終不需要過夜，也不能轉換為日間定價收費。住院期間病人病情如出現變化，導致不可預見的併發症，費用預算可能根據病情級別更新（見下文）。

Patient Condition and Complications in Inpatient Procedure/ Operation  住院病人狀況及程序 / 手術複雜性	Level 級別 1	• Patient <b>without</b> major comorbidity. Treatment according to the standard clinical protocol without major complication/ multi-specialty medical consultation/ multi-disciplinary care.	• 病人沒有重大既有疾病。根據標準臨床方案治療，沒有出現需要多專科醫生診治或多專業照顧的重大併發症。
	Level 級別 2	• Patient with <b>significant</b> comorbidity. Treatment of non-life-threatening medical complication.	• 病人患有 <b>重大</b> 既有疾病。治療非危及生命的醫療併發症。
	Level 級別 3	• Patient with <b>severe</b> comorbidity. Treatment of life-threatening medical complication.	• 病人患有 <b>嚴重</b> 的既有疾病。因治療危及生命的醫療併發症。

## Medical Condition Level of Package Fee

### 定價收費病人病情級別

The Medical Condition Level of Package Fee is determined based on complexity of the intended treatment or operation, individual patient's health condition, and post-operative complications which may require multi-specialty medical consultations, multi-disciplinary care, and the use of high-dependence/ intensive care.

定價收費價目取決於病人病情級別，基於病人的健康狀況、接受治療或手術的複雜性、及因術後併發症而需要的多專科醫生診治、多專業照顧、及加護 / 深切治療而釐定。

Day Procedure 日間治療	Stay for Day Procedure only (meals are not included). If an overnight stay is required, the inpatient package fee will be applied according to the patient condition.  入院僅作日間治療 (膳食費用除外)。如需過夜，將根據病人病情而定的住院治療定價收費計算。
Inpatient 住院治療	Include standard 4-bed room charge as per estimated length of stay according to the standard clinical pathway/ protocol. When an inpatient package fee is planned and chosen before the hospital admission, it cannot be converted to a day package fee even if an overnight stay is finally not required. The budget estimate may be updated due to changes in patient condition arising unforeseen complications during hospital stay (see below).  包括根據標準臨床方案的預計住院時間所需入住的標準4人房房費。入院前計劃如選擇住院定價收費，即使最終不需要過夜，也不能轉換為日間定價收費。住院期間病人病情如出現變化，導致不可預見的併發症，費用預算可能根據病情級別更新（見下文）。

Patient Condition and Complications in Inpatient Procedure/ Operation  住院病人狀況及程序 / 手術複雜性	Level 級別 1	• Patient <b>without</b> major comorbidity. Treatment according to the standard clinical protocol without major complication/ multi-specialty medical consultation/ multi-disciplinary care.	• 病人 <b>沒有</b> 重大既有疾病。根據標準臨床方案治療， <b>沒有</b> 出現需要多專科醫生診治或多專業照顧的重大併發症。
	Level 級別 2	• Patient with <b>significant</b> comorbidity. Treatment of non-life-threatening medical complication.	• 病人 <b>患有</b> 重大既有疾病。治療 <b>非危及生命的</b> 醫療併發症。
	Level 級別 3	• Patient with <b>severe</b> comorbidity. Treatment of life-threatening medical complication.	• 病人 <b>患有</b> 嚴重的既有疾病。因治療 <b>危及生命的</b> 醫療併發症。

## Medical Condition Level of Package Fee

### 定價收費病人病情級別

The Medical Condition Level of Package Fee is determined based on complexity of the intended treatment or operation, individual patient's health condition, and post-operative complications which may require multi-specialty medical consultations, multi-disciplinary care, and the use of high-dependence/ intensive care.

定價收費價目取決於病人病情級別，基於病人的健康狀況、接受治療或手術的複雜性、及因術後併發症而需要的多專科醫生診治、多專業照顧、及加護 / 深切治療而釐定。

Day Procedure 日間治療	Stay for Day Procedure only (meals are not included). If an overnight stay is required, the inpatient package fee will be applied according to the patient condition.  入院僅作日間治療 (膳食費用除外)。如需過夜，將根據病人病情而定的住院治療定價收費計算。
Inpatient 住院治療	Include standard 4-bed room charge as per estimated length of stay according to the standard clinical pathway/ protocol. When an inpatient package fee is planned and chosen before the hospital admission, it cannot be converted to a day package fee even if an overnight stay is finally not required. The budget estimate may be updated due to changes in patient condition arising unforeseen complications during hospital stay (see below).  包括根據標準臨床方案的預計住院時間所需入住的標準4人房房費。入院前計劃如選擇住院定價收費，即使最終不需要過夜，也不能轉換為日間定價收費。住院期間病人病情如出現變化，導致不可預見的併發症，費用預算可能根據病情級別更新（見下文）。
